Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Hertz (5,262,865).

Regarding claim 1, Hertz shows a parameter values setting section (110, 610, Figures 1b, 1c, and 6), a sequence control section (300, 630, see col. 4, lines 62-67), and a video signal processing section (660). Hertz further states that the parameter data stored in the memory 640 can be retrieved for later use (col. 5, lines 8-14). The effects based on the parameter data are downloaded to the mixer from the memory 640 sequentially (col. 5, lines 14-35).

Regarding claim 2, see Figure 5.

Regarding claim 3, see col. 4, lines 2-16.

Regarding claim 4, see col. 4, lines 24-32.

Regarding claim 5, see col. 4, line 47, to col. 5, line 11, and col. 6, lines 47-57.

Regarding claim 6, see col. 1, lines 42-45, and lines 56-66.

Regarding claim 7, see col. 1, lines 28-36.

Regarding claims 8 and 9, see rejection to claim 1.

Response to Arguments

3. Applicant's arguments filed 10/6/06 have been fully considered but they are not persuasive.

In considering applicant's argument that Hertz does not contain any disclose or suggestion of reading out pre-stored parameter values for applying visual effects to a video picture, wherein the pre-stored parameter values are read out in accordance with the time progression of the video reproduction, the examiner recognizes that Hertz not only stores the parameter values but also retrieves them as stated in col. 5, lines 8-11. The retrieved data is used to edit a picture on a frame-by-frame basis (col. 5, lines 26-32). The retrieve operation clearly meets the read out function as claimed.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
